MULTI TACTION

Interactive Displays

Use as a wall or as a table

Standalone or stacked together, MultiTaction Cells are available with or without an embedded computer

MULTI TOUCH

MultiTaction Cells are modular. You can combine several units together in a table or wall of any size and form, or embed them into custom furniture.

Integrated Windows 7, Windows 8 or Linux computer with Intel ® Core™ i7 CPU in Embedded Cell models.

World's first ultra thin bezel LCD in an interactive display allows near seamless video walls of up to 24 units.

- **Recognizes an unlimited number of touch points**
- **Tracks fingers, hands, 2D markers, real-life objects and infrared pens**
- **Modular, stackable to any size and shape**
- **Up to 200 times per second tracking**

The MultiTaction ® Cell 55" and the MultiTaction ® Cell 42" are multiuser interactive displays that provide the world's most advanced set of touch capabilities. With their ultra-fast response time, they can accommodate an unlimited number of touches and users simultaneously, from input methods of any kind. MultiTaction displays allow engaging and intuitive user experiences on a large scale.

# MultiTaction supports multiple input methods

Unmatched multi-user capability and
wide choice of development tools and platforms

Hand tracking allows natural gestures and multi-user interactions.

Use simultaneously with pen and touch.

Computer vision recognizes objects and 2D codes.

MultiTouch Ltd's MultiTaction Technology

- Computer Vision Through Screen (CVTS) recognizes an unlimited number of fingertips, fingers, hands, infrared pens and objects simultaneously.

- Extensible Hybrid Tracking System (EHTS) eliminates sensitivity to external lighting.

- Integrated Backlight Emitter Camera (IBEC) modules with embedded Matrix Tracking System (MTS) provide the industry's only touch system integrated into the LCD backlight plane.

- Works on Mac, Linux and Windows environments.

- MultiTaction Engine provides tracking output in all common formats and works with available software development kit to utilize all advanced features.

- Supports a wide range of third-party applications.
